

MSOE EECS Department

CS-2852: Lab 7 Grading Checklist

Dr. Durant

Name: _____ Section: _____

Item	Points
Fully documented source: LookupTable.java. Should be well formatted. For example, you might print from IntelliJ using 10pt Consolas with line numbers, and default headers (filename) and footers (page numbers). Some linewrapping is okay, but it should not be excessive. Use landscape mode or an 8pt font if necessary.	/ 35
Fully documented source: MorseEncoder.java Document each of the features listed in the lab under "Additional details" E.g., // Replicates line breaks from input file	/ 15
Testing: Paragraph explaining what happens if you put() 2 objects with the same key into a LookupTable. Write LookupTable.main() to test all methods in the class, including a double put. By implementing main inside the LookupTable class, you have access to the Entry object so that you can verify the value of the objects in your test code.	/ 20
Demo (Due in week 8 lab)	/ 30
Total	/ 100

- **Staple** this lab cover sheet on top of all the materials you are submitting.
- Submit everything in the **order** listed above.
- Your lab is due before the EECS Department Office closes on the last business day in the week the lab is performed. You may submit it to my mailbox, in person, on my bulletin board, etc.
- Extra copies of lab checkout sheets are available on my website.
